

Shishko Disco BIO 2022

We believe that when traditions come together it gives birth to a new, wider culture. In this way we are aiming to communicate our message: That every culture being pure and outstanding is also a part of a wider global human culture which we are unraveling ever so rapidly in this time and age.

Shishko Disko is the musical project of Mosh Zehavi. It is comprised of a collective of incredible international musicians, who come together in different assemblies to play the rich music of the Mosh. The style of the music is a fusion of Arab progressive rock, wild pah-koo-chee-pah-doo-doo-bap-doo grooves and lyrical cinematic environments.

The project was established in India in 2014 and has been actively recording and performing ever since with various centres - India, Berlin and most recently Israel.

The self titled debut album was released in 2018 in Berlin with the Berlin based band members featuring lead vocalist Joy Tyson, violinist Daniel Avi Schneider, bassist Ahmed Eid and drummer Kuba Gudz.

Most recently Mosh is based in Israel and is re-creating a new show with original members of the band from early years in India as well as new members.
